Week 7 : Programming Assignment 3

Due on 2023-09-14, 23:59 IST

Write a C program to find subtraction of two matrices i.e. matrix_A - matrix_B=matrix_C.

If the given martix are

2 3 5 and 1 5 2 Then the output will be 1 -2 3
4 5 6 2 3 4 2 2 2
6 5 7 3 3 4 3 2 3

The elements of the output matrix are separated by one blank space

Passed

The due date for submitting this assignment has passed.
1 out of 1 tests passed.
You scored 100.0/100.

Assignment submitted on 2023-09-02, 23:29 IST

Your last recorded submission was :

```
1 #include <stdio.h>
2 int main()
3 {
4     int matrix_A[20][20], matrix_B[20][20], matrix_C[20][20];
5     int i,j,row,col;
6     scanf("%d",&row); //Accepts number of rows
7     scanf("%d",&col); //Accepts number of columns
8
9     /* Elements of first matrix are accepted from test data */
10    for(i=0; i<row; i++)
11    {
12        for(j=0; j<col; j++)
13        {
14            scanf("%d", &matrix_A[i][j]);
15        }
16    }
17
18    /* Elements of second matrix are accepted from test data */
19
20    for(i=0; i<row; i++)
21    {
22        for(j=0; j<col; j++)
23        {
24            scanf("%d", &matrix_B[i][j]);
25        }
26    }
